MESSAGE FROM THE DIRECTOR

It has been incredible to see the therapeutic power of employment in the lives of Chrysalis consumers.

Your support has given us the opportunity to grow and strengthen our services. This year, not only have we increased the number of individuals we serve, we have also made great strides in implementing new practices in supported employment and added a new peer support program.

We greatly rely on our community for contributions in many forms; whether you have volunteered, created a job opportunity, participated in one of our fundraisers, or provided your financial support, it is greatly appreciated.

Thank you for all of your support!

Dani Rischall

Dani Rischall, MSW
Executive Director

MISSION

Chrysalis creates and supports meaningful work opportunities for adults living with mental illness in our community.

VISION

Chrysalis supports recovery by providing consumers the opportunity for work that fulfills individuals' needs, and aspiration, and promotes hope, healing, and empowerment.

"I can do anything, but I can't do nothing"

Gary
Chrysalis Consumer

Peer Supports

The peer specialist movement embodies Chrysalis' strengths-based perspective. Peer supports give persons with lived experience of mental illness the opportunity to use their unique set of recovery experiences in combination with solid skills training to support peers who have mental illness.*

- Chrysalis currently employs four Certified Peer Specialists who have collectively provided 445 hours of services in 2012.

*Wisconsin Peer Specialist Employment Initiative

Individual Placement & Supports (IPS)

Chrysalis has made great strides in the implementation of the IPS model of Supported Employment. IPS helps people with severe mental illness work at regular jobs of their choosing. This Evidence-Based Practice incorporates Chrysalis' core value of consumer choice while promoting wellness and recovery.

- In 2012, Chrysalis consumers received 2,959 hours of job support.

Cafeteria Employee

“I think with mental illness there is a stereotype that it’s really nothing, but it really is something. I had been looking for a job for almost a year before I got my job.

It felt great when they said; “You’re hired.”

I was like “WHAT!”

Chrysalis provided support when I felt frustrated with the job search. My employment specialist, Hannah and I met weekly to complete job applications and talk about my anxiety.

I am proud of myself because I am pushing myself out of my comfort zone; I am **making money** and **making friends**. My favorite thing about the job is meeting new people. It has been nice to work in a school district because people are really friendly.

I also get peer support services at Chrysalis from Eric. We talk about my family situation and everyday life. It’s helpful to talk to him because he has also been through some difficult things, he is someone I can talk to and relate with.

My advice to someone who has been looking for work for a long time is to stay positive and keep applying, because you never know!
