

This year Chrysalis is celebrating 40 years of service, action, and transformation in our community. The timeline of key events in the history of Chrysalis only tells part of our story. What it doesn't show is the constant commitment from incredible community leaders who worked to create and maintain an organization founded in person-centered services and client preferences.

While we have seen immense growth in programs, partnerships, and outcomes, it is humbling and inspiring to see what remains firmly at the core of Chrysalis. We believe that those receiving services are the true experts, that people can reach their goals, and that we all have a meaningful role to play in our community.

Thank you to the countless individuals who have supported Chrysalis over the past 40 years and to those who continue to show your support. As we look ahead to the next 40 years, we will hold our core values close as we work to amplify our mission and our impact.

Thank you!

Dani Rischall, LCSW
Executive Director

Individual Placement and Support (IPS)

The IPS program supports individuals with mental health and/or substance use challenges find and maintain meaningful work. The program values participant voice and believes that work is an integral component of recovery.

Vocational Peer Support

Vocational Peer Specialists use their unique set of mental health and/or substance use recovery experiences in combination with solid skills training to support peers along their individual vocational recovery journey.

Chrysalis Pops

A social enterprise offering individuals meaningful paid work experience from seed to sales. Participants grow, create and sell local, organic, frozen fruit pops.

Service Facilitation

CCS Service Facilitation offers a wide array of recovery services to adults with mental health and/or substance use challenges. Primary services include care coordination, assessment and recovery planning.

"Chrysalis Pops gave me the confidence to work successfully. It helped me form relationships. Every time I see people at Chrysalis I feel comfortable and safe."
-Cassidy

"Peer Support is different than other mental health care professionals. It comes off much more authentic. Peer Support is someone who has shared that experience and this makes me much more comfortable. I find myself able to talk and relate more."
-Dale
